Welcome to the Better Cotton Platform!

Dear Better Cotton Platform User,

The **Better Cotton Platform (BCP) Annual Upgrade** was completed on Tuesday 17th May 2022.

As you may have already noticed, the BCP now offers you the following new functionalities:

- **Company Access Box:** The company access box will show you all companies to which you have BCP access. Please use the Company Search (top of the screen) to alternate between accounts or simply click on one of the accounts in the dashboard box.
- **Account End Date** (mainly for non-member BCP suppliers): You can now see the End Date of your account in the Dashboard Box (at the bottom of the page). The End Date is the day on which your account will expire. It will be visible by default only for non-member BCP suppliers.
- **Notifications:** You will now receive a notification when a transaction cancellation request is submitted by the other party for a transaction in your account. You and the other party will also receive a notification when the transaction cancellation request is accepted by Better Cotton. The notifications will appear under the Bell icon in the top right-hand corner of the screen. The icon will appear only when there is an unread notification.

Overdraft removal

This is to bring to your attention that the option to overdraft BCCUs from your Better Cotton inventory in the Better Cotton Platform (BCP) will be disabled from [June 20, 2022](#).

As per [Better Cotton Chain of Custody Guidelines V1.4, Section 3.2.12](#), which allows suppliers to fulfil Better Cotton orders up to a maximum of -500,000 BCCUs and with the requirement to recover the same within 120 days, we are disabling the function to accommodate a phase-out of the negative inventory option by [October 20, 2022](#).

Phasing out the negative inventory option will strengthen our existing chain of custody and minimise related credibility risks. After June 20, supplier accounts will not be able to add a sales transaction if there are not sufficient BCCUs in the seller's account. Accounts already with negative inventory by June 20 will have until October 20 for the inventory to be recovered by the Account holder. The existing rules for negative inventory will continue to apply until October 20, 2022.

Thank you for your continued support and co-operation!
Better Cotton Supply Chain Team
